YOUR STORY in every detail

Your past, your present, your future envisioned—your well-lived life is reflected in the elegant design choices you make.

Decorative accents are the beautiful narrators of your life story: enriching your setting with details that define your personality and rounding out the character behind your signature style.

From wall art to florals, Ethan Allen offers a treasure trove of unique elements—those for adding unexpected pops of color and texture, others that unify décor themes. All are handcrafted with the care and attention you expect from an iconic style brand.

QUALITY CRAFTSMANSHIP in every detail

Our accent pieces are not only expressions of our clients who choose them but also of the artisans whose dedication to their craft is evident in every little detail.

From around the world, we curate the work of craftsmen and craftswomen whose skills are passed through generations. They make use of the many specialized materials unique to their regions: ceramics from Europe, fine metals from India, stone and fabrics from around Southeast Asia.

Our collaboration with these global workshops is supported by a shared passion for quality and guided by our exacting Ethan Allen standards.

“At Ethan Allen, being known for your work ethic every day is a guiding value behind our business. We’re proud of our collaborations with entrepreneurial businesses, support their dedication to detail and hard work, and value their creative contributions.”
