MEET US AT THE CORNER OF quality & customization

The inside of an Ethan Allen sectional is all about quality: a sturdy, kiln-dried hardwood frame, CertiPUR-US® certified foams, and tempered springs made from at least 50% recycled materials. The outside, personalized in one of hundreds of our custom fabrics or leathers, with all the flourishes that you fancy, is all about you.

The artisans in our North American workshops tailor every one of our sectionals by hand, from taut, tailored, and classic to low, loungy, and modern. Every stitch, every tuft, every welt, accent button, or nailhead, is perfectly configured to suit your space.

When an exceptionally crafted Ethan Allen sectional becomes part of your home, at least one corner of your world becomes exactly as it should be.

THAT CAN BE arranged

Configure your sectional and the space around it.

SHAPE

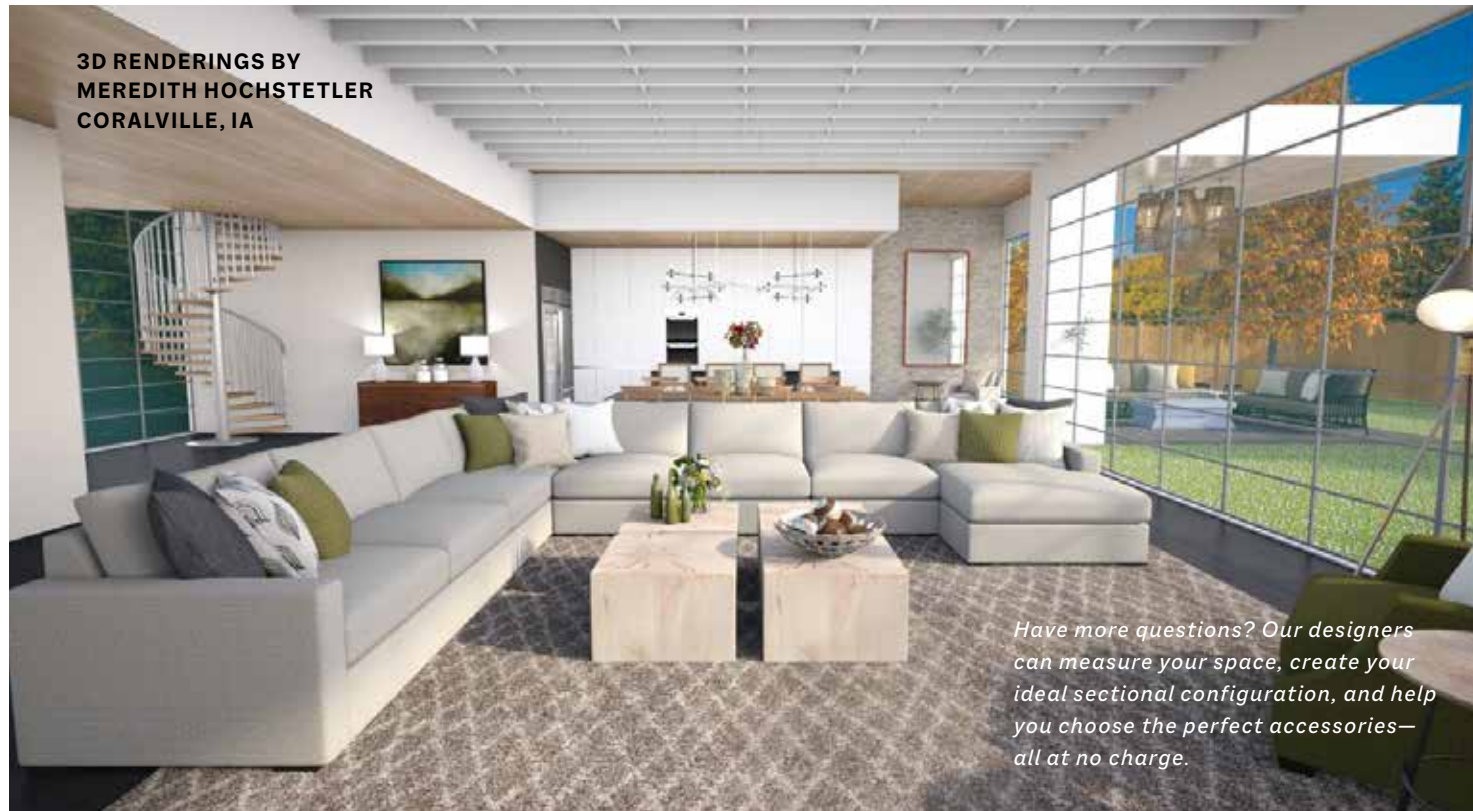

L-shaped sectionals fit in a corner or float away from a wall, which makes them versatile choices for both small and large spaces.

- Configure as a two-seat sofa plus a chaise for stretching out, or for maximum seating, arrange modular components to look like two adjoining sofas.
- Not sure about left-facing or right-facing? Face the place where you want your sectional to go. If you want it to extend outward on the right side, choose right-facing; if you want it to extend left, choose left-facing.
- For extra legroom, opt for a rounded corner. See our Marcus sectional on page 4.

U-shaped sectionals define conversation zones in large, open concept rooms. They're also good problem solvers in long, narrow spaces, where fitting more seating across from your sectional would be a challenge.

SURROUNDINGS

Accessorize your sectional in five easy steps:

1. Place pillows against the right and left arms and in each corner. Pillows should be at least 20" square, so they can match the scale of your sectional.
2. Add task lighting at one or two ends, in the form of either a table lamp or a large floor lamp.
3. Choose a rug that's wider and longer than your sectional; it will make the area look more spacious.
4. Select a coffee table or cocktail ottoman that's easy for everyone to reach.
5. Consider a console table behind one side of your sectional if you're floating it away from the wall.
