Years ago, we watched other furniture companies move their production overseas. We chose to stay right here in North America and keep making most of our furniture ourselves.

Every upholstered sofa, sectional, chair, or bed you buy from Ethan Allen is tailored by hand– in the fabric or leather you love, in the size that fits your space, and with the finishing touches chosen by you and your designer.

For almost a century, we've made good on our belief that the finest things in life are found closest to home. That's why we're proud to make about 75% of our products–including all of our upholstery– in our own North American workshops.

WE CRAFT IT

for quality you can count on, year after year

ORLEANS, VT

Custom wood furniture: It's how our legacy of legendary craftsmanship began, a legacy we've kept alive in North America for almost a century.

We start with sustainably sourced wood, much of which comes from Appalachian forests. We dry lumber in our own kilns, recycling wood chips and sawdust to power the boilers that keep the kilns hot.

Once the wood is ready, we go to work, assembling planked tops, turning legs and posts, and applying every finish, every piece of leaf, and every strip of wood veneer by hand.

The result: something designed to be part of your family for years to come, and one of the most beautiful pieces of furniture you'll ever own.
