ETHAN ALLEN®

— 90 YEARS OF INNOVATION —

Carlen SOFA

A fashionable silhouette inspired by midcentury and Scandinavian design. Tailored by hand in your choice of fabric, Carlen fits right in with modern living rooms. Choose a smooth back or add accent buttons.

Andover^{BED}

Andover's low profile elevates sophisticated details like its headboard, with hand-applied, ribbon-patterned veneers, and its transitional, tapered legs. For a different look, choose an upholstered headboard panel, which we can tailor in your favorite fabric.

INTERIOR DESIGN BY ETHAN ALLEN

where talent &
technology combine

**What's the best part about working with Ethan Allen?
Working with a professional interior designer, whose
service and expertise are available free of charge.**

The experience starts when you ask a question—any question. Our designers work with you to provide answers, using their creative skills and years of experience to guide you through projects as small as updating your décor for the season, or as large as redesigning your entire home.

Once you love the direction, they'll create vision boards and 3D room plans just for you. It's an almost-real taste of what the finished project will look like.

From choosing just a few accents to customizing every detail of a brand-new space, our designers are with you every step of the way. Bring your questions to the Design Center to get started.

Conway

SECTIONAL

Deep seats and wide track arms create a plush look that invites you to sink in and chill out. Comfortable and casual in cream-colored fabric, like you see here, or contemporary and loungy in hand-tailored leather.

MASTER CRAFTSMANSHIP

where expertise meets innovation

We offer endless customization options for so much of our furniture because we make most of it ourselves. Nearly 75% of our products are made in our North American workshops.

When you place an order, our master craftspeople get to work. You chose every fabric or leather, finish, and detail. We turn every element into one-of-a-kind furniture.

In our workshops, time-honored techniques, from wood-carving to hand-tailoring, meet the most modern technology, from lathe-turned legs to laser-cut details. Because our furniture is made by the hands and under the watchful eyes of our craftspeople, every piece is made unique by the artisan's touch.

This is the essence of Ethan Allen, our skills, our passion, our innovation—to make something that's all for you, and you alone.
