400 SERIES

Only Stickley lets you put a motion seat anywhere you want it in your sofa, loveseat or sectional. The 400 Series sofas, loveseats, chairs and sectional components keep their reclining function a carefully hidden secret. Fully finished backs and the “zero-clearance” ability to place your sofa or chair tight against the wall, means that these impeccably tailored, custom designs don’t look like motion furniture. That is, of course, until you activate the simple, infinite-position switch concealed between the cushion and the arm, and the ultra-high quality, motorized mechanism glides you silently into your own “Comfort Zone”. And, these fully supportive, high back styles are also available as conventional stationary upholstery.
